- Objective**
- Looking for the opportunity to make my career in a company where I can exert all my best efforts, diligence, knowledge and planning skills to achieve the company's goals and objectives.
- Education**
- B.E./B.tech, Chitkara University,Punjab
7.1
Pursuing
- Experience**
- Worked in two different successful University based Startups.
Promotional Head and Design Modifier.
Aug 2018 - Feb 2019
Worked as an INFLUENCER and Content Writer
- Project**
- **PROJECT : 1**
Ensuring safe driving in adverse condition Device
Made a Device in which we first built a prototype car with the use of different tools and then we combined the whole system with the help of Arduino we used different components like Motor drivers,sensors,blow horns,buzzers,LCD screen along with breadboard and Male female wires.
The main motive of the project is to provide safe driving by avoiding accidents with the help of displaying distance from the front and back vehicles on the main screen.
Period : 4 months Team Size:
Role : Team Leader
 - **PROJECT : 2**
Book stacking device
Made an automatic book stacking device to reduce the load in libraries using different stages of engg. with the help of Arduino,motor drivers,batteries,sensors,motors,breadboards etc.
coding language used: Normal Arduino language and Android
Period : 3 months Team Size:
 - **PROJECT : 3**
DGconnect (smart city)
We are actually building an app based on QR code which is very user friendly which ensures that when a person scans the qr code which will be printed on the personal vehicle of the person he/she will be able to see the details of the person's details like adhar card,driving license, insurance papers, pollution papers, rc etc. This will reduce the corruption,accidents,jumping of red lights and most importantly tension. The project is a blessing to the society for a smart City including technology which will be user friendly and eco friendly. Further idea is vast and can be explained in person. (Still working on this project as it has a bright future)
Period : 3 days Team Size:

Skills

- LANGUAGE - Web Programming, HTML, CSS, Basic knowledge in Java
- Database - Oracle 11g, MySql, SQL Plus
- OPERATING SYSTEM - Windows 98/2000/Xp/Vista/7/8/10, Ubuntu
- Software Engineering - UML
- Tools - Microsoft office (Word, Excel, Pwerpoint), Microsoft Outlook, Eclipse IDE

Achievements

- Bagged 2nd position in India's first 48 hours Design Thinking Hackathon.
- Bagged 3rd place in Interuniversity startup weekend that took place of 4 days.
- Members of Toastmasters club in which I have bagged different acheivements and certifications like best ice breaker,best ah-counter ,beat timer,best table topics speaker.
- Bagged 1st in tug-of-war event that was held for a social cause.
- Certified in event management in Rangrezz (National Theatre fest)
